

APPR - Independent Evaluator Waiver for 2016-2017

The APPR Plan Document remains the negotiated and state approved plan to meet the 3012-d regulations. However, we have been granted a state waiver to NOT have to comply with the Independent Evaluator regulation for this academic year.

All aspects of the 3012-d APPR Plan Document remain. The waiver modifies the current APPR plan document this year in a few ways:

- 1) The unannounced observation can be conducted by a building evaluator (principal, associate principal, master educator)

- 2) The weighting of the announced and unannounced observations changes. The weighting will revert back to what it has been for the past four years. All observations will be equally weighted and averaged to calculate the rating for the Observation Category.

Please see the example charts in the attached PDF.
